

A TIP OF OUR HARD HATS TO OUR CONSTRUCTION PARTNERS

WEST VANCOUVER FREIGHT ACCESS PROJECT

THANK YOU FOR MAKING THIS CRITICAL RAIL PROJECT AN ONGOING SUCCESS STORY!

In 2013, the Port of Vancouver USA completed the Gateway Overpass, a key element of the WVFA. We worked with 45 businesses throughout the two-year, \$15.9 million project. These businesses are part of a larger group of 167 contractors and consultants who have worked on the WVFA project to date. Thank you for your hard work and commitment.
