SUBJECT: Approve Resolution 1-2020: Establishing Time and Place for Regular Meetings of the Port Commission

BACKGROUND:

Resolution 7-2018 establishes the time and place for the Port of Vancouver Board of Commissioners regular meetings to be held on the second and fourth Tuesdays of every month beginning at 8:30 a.m. at the administrative offices of the Port of Vancouver, 3103 NW Lower River Road, Vancouver, Washington.

Resolution 7-2018 was adopted as a trial run after receiving community feedback to determine if the time change from 9:30 a.m. to 8:30 a.m. would help increase community and stakeholder engagement. After observation and evaluation, it was determined that the level of community and stakeholder engagement did not increase and resulted in unintended traffic and travel delays for regular attendees.

At this time, it is more desirable to hold the regularly scheduled meetings at 9:30 a.m. on the second and fourth Tuesday of every month beginning Tuesday, February 25, 2020. This maintains community and stakeholder engagement, provides for additional time to avoid travel and traffic delays, and allows for expeditiously handling the business affairs of the port district.

APPROVED BY:	
	Chief Operations Officer 02/11/2020

SUBJECT:	Approve Contracts with Geotechnical Resources Inc. (GRI) and GeoDesign Inc. for On-Call Geotechnical Services

BACKGROUND:

These contracts support the Port of Vancouver strategic goal to pursue opportunities that utilize the port's property and infrastructure investments to create jobs and support the economy.

On-call contracts are developed to engage consultants who have been selected through a competitive solicitation process. When a project is defined, the scope of work is negotiated with the consultant and a task order is issued through the on-call contract.

In December 2019, the port received and evaluated six proposals in response to a Request for Qualifications (RFQ) issued for On-Call Geotechnical Consulting Services. Three finalists were selected for interviews. Geotechnical Resources Inc. (GRI) and GeoDesign Inc., were determined the two most qualified proposers for award of an on-call geotechnical services contract.

On-call geotechnical engineering services are utilized for the support of design, planning, permitting and implementation of port infrastructure and capital development projects. Geotechnical engineering services address the investigation of subsurface conditions and the materials engineering evaluation of earth materials. This typically includes soil, rock, and groundwater related to earth retention systems and structural foundations in support of civil engineering design and development.

Each contract will be issued for three-year terms. If approved contract amounts are reached on the on-call contract(s), additional funds will be requested in accordance with Resolution 9-2015 Administrative Authority of the CEO/Executive Director and approved through the annual budget process.

Additional Information Attached? No

RECOMMENDATION: That the Board of Commissioners authorize the CEO to execute contracts with Geotechnical Resources Inc., in the amount of \$500,000 and GeoDesign Inc., in the amount of \$300,000, including applicable Washington State Sales Tax, for On-Call Geotechnical Engineering Services.

SUBJECT: Approve Contract with Amber Carter for State Lobbying Services

BACKGROUND:

This contract supports the Port of Vancouver's strategic goal to pursue opportunities that utilize the port's property and infrastructure investments to create jobs and support the economy. To meet these goals, aggressive and sustained advocacy is necessary to secure funding and address regulatory issues for projects supporting the plan.

A Washington State legislative services contract with Amber Carter Government Relations, LLC is recommended to maximize Port of Vancouver resources for development and conservation efforts and to create and sustain legislative support for Port of Vancouver projects and initiatives. Ms. Carter has been serving on behalf of the port since 2017 as government relations representative. This contract will continue to provide a full range of advocacy, legislative strategy and communication services during the legislative session and throughout the year.

Amber Carter Government Relations, LLC provides a unique set of skills and experience to the port through her work with Columbia River organizations and issues, community issues through her association with Identity Clark County, statewide and local transportation issues, and her knowledge of the port industry. Amber Carter Government Relations, LLC brings a rich awareness and understanding of the political climate in Olympia and the state budget process, as well as excellent relationships with individuals representing the Washington Public Ports Association, BNSF Railroad, and regional jurisdictions. Continuity in services is critical to maintain momentum and to maximize opportunities for funding. Due to her intimate knowledge of port business and the port's ongoing needs, it is recommended that her services be continued with a five-year contract.

This contract will be issued for a not to exceed amount of \$51,000 per year which has been included in the 2020 approved budget. The contract period is for one year with the option to extend for up to four, one-year periods. Subsequent contract amendments shall be approved through the annual budget approval process.
